

# United Way Day of Caring

Recently SRVS was graced with volunteers from Buckman Laboratories' group for the United Way Day of Caring. Accompanied by their President and Chairman of this year's United Way campaign, Kathy Buckman Gipson, the volunteers enjoyed the day of caring at the home of JoAnne. Buckman volunteers wanted to revitalize JoAnne's surroundings and that is just what they did. JoAnne now has her own Sensory Garden where she can sit and admire all the colors, textures and smells of her new garden. Soon she will have a tree surrounded by gorgeous azaleas and hydrangeas. The volunteers planted many seeds, bulbs and small flowers for JoAnne to take part in the new growth of her garden. JoAnne was also there to participate in making stepping stones for the backyard. JoAnne loves to sit outside and enjoy the outdoors, as well as sit in her swing and watch the kids walk by her house. We greatly appreciate Buckman Laboratories for caring and for creating this home makeover, and giving JoAnne and her staff a beautiful space to enjoy the outdoors.

Clavin begins his 1<sup>st</sup> task at making a beautiful garden for JoAnne.

The Buckman Volunteers are all smiles as they plant seeds for a great cause.

(L-R) Ken, Sean and Clavin take a break after a hard days work.

The Buckman volunteers: Front row (L-R): Gerald Minor, Nancy Glover. Back row (L-R): Jaques Morrise, Pat Plunk, Ken Dowdy, Beth Bazar, Clavin Boyd, Guy Nathaniel, Lisa Taylor and Sean Casey.
