DATE: October 12, 2009

Applications and letters of interest are now being accepted for the following position ONLY. We will accept applications Monday thru Friday 8am until 3pm. ONLY experienced applicants who meet the minimum qualifications listed below need apply. Applications and resumes are active for 6 months. Jobs on this posting are valid for 5 days from posting date.

Programmer

Duties: Under the supervision of the Director of Information Systems, the programmer is responsible for writing code for programs and for designing information systems to meet user's needs. In addition, the programmer will be responsible for solving technical problems related to programs, equipment, systems, and user needs. While troubleshooting technical and programming problems, programmer must have the ability to problem solve, and posses the ability to understand user needs and communicate them to supervisor, and management staff. Use system analysis to meet business requirements and solve problems. Work with all areas of the agency to ensure that IS needs are developed, updated, and maintained.

Requirements: Requires a Bachelor's Degree in Computer Science or related field and have at least 2 years of work experience, or equivalent work experience, education and/or training. Must be knowledgeable and have written programs in at least two of the following languages: C#, VB, or VB.net.

Approved By:

Jeffrie J. Bruton, Executive Director
